1 Identification

- · Product identifier
- · Trade name: <u>35°C Hydroxyl Reagent</u>
- Article number: DC994
- Details of the supplier of the safety data sheet • Manufacturer/Supplier: Aqua Solutions, Inc.
- 6913 Highway 225 DEER PARK, TX 77536 USA 800-256-2586
- Information department: Technical Coordinator Sherman Nelson shermann@aquasolutions.org • Emergency telephone number:
- *Chemtrec:* 800-424-9300 *Canutec:* 613-996-6666

2 Hazard(s) identification

| Flammable Liquids 2 | H225 Highly flammable liquid and vapor. |
|-------------------------------|---|
| GHS08 Health haz | ard |
| 1 , | H334 May cause allergy or asthma symptoms or breathing difficulties if inhaled. |
| e , | H351 Suspected of causing cancer. |
| Toxic to Reproduction 1A | H360 May damage fertility or the unborn child. |
| Eye Damage 1 | H318 Causes serious eye damage. |
| GHS07 | |
| Acute Toxicity - Oral 4 | H302 Harmful if swallowed. |
| Acute Toxicity - Dermal 4 | H312 Harmful in contact with skin. |
| Acute Toxicity - Inhalation 4 | H332 Harmful if inhaled. |
| Skin Irritation 2 | H315 Causes skin irritation. |
| Sensitization - Skin 1 | H317 May cause an allergic skin reaction. |

• Classification system: • NFPA ratings (scale 0 - 4) Health = 3 Fire = 3 Reactivity = 0

· HMIS-ratings (scale 0 - 4)

HEALTH*3Health = *3FIRE3Fire = 3REACTIVITY0Reactivity = 0

· Other hazards

· Results of PBT and vPvB assessment

• **PBT:** Not applicable.

· vPvB: Not applicable.

3 Composition/information on ingredients

· Chemical characterization: Mixtures

• Description: Mixture of the substances listed below with nonhazardous additions.

| · Dangerous components: | | |
|-------------------------|----------------------|---------|
| CAS: 110-86-1 | Pyridine | 80.416% |
| CAS: 85-44-9 | Phthalic Anhydride | 17.2% |
| CAS: 288-32-4 | Imidazole, Certified | 2.385% |

4 First-aid measures

· Description of first aid measures

• General information:

Immediately remove any clothing soiled by the product.

Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident.

• After inhalation:

Supply fresh air and to be sure call for a doctor.

In case of unconsciousness place patient stably in side position for transportation.

- After skin contact: Immediately wash with water and soap and rinse thoroughly.
- After eye contact: Rinse opened eye for several minutes under running water. Then consult a doctor.
- · After swallowing: Immediately call a doctor.
- · Information for doctor:
- · Most important symptoms and effects, both acute and delayed No further relevant information available.
- · Indication of any immediate medical attention and special treatment needed

No further relevant information available.

5 Fire-fighting measures

- · Extinguishing media
- · Suitable extinguishing agents:

CO2, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. • *Special hazards arising from the substance or mixture No further relevant information available.*

- · Advice for firefighters
- · Protective equipment: Mouth respiratory protective device.

6 Accidental release measures

- Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away.
- Environmental precautions:
- Dilute with plenty of water. Do not allow to enter sewers/surface or ground water.
- Methods and material for containment and cleaning up:
- Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Use neutralizing agent.
- Dispose contaminated material as waste according to section 13. Ensure adequate ventilation.
- · Reference to other sections
- See Section 7 for information on safe handling.
- See Section 8 for information on personal protection equipment.
- See Section 13 for disposal information.
- · Protective Action Criteria for Chemicals

| · PAC-1: | | |
|---------------|----------------------|----------------------|
| CAS: 110-86-1 | Pyridine | 3 ppm |
| CAS: 85-44-9 | Phthalic Anhydride | 18 mg/m ³ |
| CAS: 288-32-4 | Imidazole, Certified | 0.66 mg/m |
| · PAC-2: | | |
| CAS: 110-86-1 | Pyridine | 19 ppm |
| CAS: 85-44-9 | Phthalic Anhydride | 56 mg/m ² |
| CAS: 288-32-4 | Imidazole, Certified | 7.3 mg/m |
| · PAC-3: | | |
| CAS: 110-86-1 | Pyridine | 3600* ppm |
| CAS: 85-44-9 | Phthalic Anhydride | 10,000 mg/m |
| CAS: 288-32-4 | Imidazole, Certified | $44 mg/m^3$ |

7 Handling and storage

· Handling:

- · Precautions for safe handling
- Ensure good ventilation/exhaustion at the workplace. Open and handle receptacle with care. Prevent formation of aerosols.
- Information about protection against explosions and fires: Keep ignition sources away - Do not smoke. Protect against electrostatic charges. Keep respiratory protective device available.
- · Conditions for safe storage, including any incompatibilities
- · Storage:
- Requirements to be met by storerooms and receptacles: Store in a cool location.
- · Information about storage in one common storage facility: Not required.

• Further information about storage conditions:

Keep receptacle tightly sealed.

Trade name: 35°C Hydroxyl Reagent

- Store in cool, dry conditions in well sealed receptacles.
- Specific end use(s) No further relevant information available.

8 Exposure controls/personal protection

• Additional information about design of technical systems: No further data; see section 7.

· Control parameters

• Components with limit values that require monitoring at the workplace:

The following constituent is the only constituent of the product which has a PEL, TLV or other recommended exposure limit.

At this time, the other constituents have no known exposure limits.

CAS: 110-86-1 Pyridine

PEL Long-term value: 15 mg/m³, 5 ppm

REL Long-term value: 15 mg/m³, 5 ppm

TLV Long-term value: 1 ppm

• Additional information: The lists that were valid during the creation were used as basis.

· Exposure controls

AЗ

- · Personal protective equipment:
- · General protective and hygienic measures:

Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing. Wash hands before breaks and at the end of work. Store protective clothing separately. Avoid contact with the skin.

Avoid contact with the eyes and skin.

• Breathing equipment:

In case of brief exposure or low pollution use respiratory filter device. In case of intensive or longer exposure use respiratory protective device that is independent of circulating air.

• Protection of hands:

Protective gloves

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.

Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation \cdot *Material of gloves*

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

Penetration time of glove material

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

· Other information

No further relevant information available.

10 Stability and reactivity

· Reactivity No further relevant information available.

· Chemical stability

• Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.

· Possibility of hazardous reactions No dangerous reactions known.

• Conditions to avoid No further relevant information available.

• *Incompatible materials:* No further relevant information available.

· Hazardous decomposition products: No dangerous decomposition products known.

11 Toxicological information

· Information on toxicological effects

• Acute toxicity:

· LD/LC50 values that are relevant for classification:

| ATE (Acu | te Toxicity | , Estimate) |
|------------|-------------|-------------|
| | | 500 mg/kg |
| Dermal | | 1,368 mg/kg |
| Inhalative | LC50/4h | 13.7 mg/l |

· Primary irritant effect:

• on the skin: Irritant to skin and mucous membranes.

• on the eye: Strong irritant with the danger of severe eye injury.

· Sensitization:

Sensitization possible through inhalation.

Sensitization possible through skin contact.

Additional toxicological information:

The product shows the following dangers according to internally approved calculation methods for preparations: Harmful

Irritant

· Carcinogenic categories

· IARC (International Agency for Research on Cancer)

CAS: 110-86-1 Pyridine

· NTP (National Toxicology Program)

None of the ingredients is listed.

· OSHA-Ca (Occupational Safety & Health Administration)

None of the ingredients is listed.

12 Ecological information

· Toxicity

• Aquatic toxicity: No further relevant information available.

· Persistence and degradability No further relevant information available.

- · Behavior in environmental systems:
- · Bioaccumulative potential No further relevant information available.
- *Mobility in soil* No further relevant information available.
- Additional ecological information:
- · General notes:

Water hazard class 2 (Self-assessment): hazardous for water Do not allow product to reach ground water, water course or sewage system. Must not reach bodies of water or drainage ditch undiluted or unneutralized. Danger to drinking water if even small quantities leak into the ground.

- · Results of PBT and vPvB assessment
- **PBT:** Not applicable.
- **vPvB:** Not applicable.
- Other adverse effects No further relevant information available.

13 Disposal considerations

· Waste treatment methods

· Recommendation:

Must not be disposed of together with household garbage. Do not allow product to reach sewage system.

- · Uncleaned packagings:
- Recommendation: Disposal must be made according to official regulations.
- · Recommended cleansing agent: Water, if necessary with cleansing agents.

| Use explosion-proof electrical/ventilating/lighting/equipment. |
| Use only non-sparking tools. |
| Take precautionary measures against static discharge. |
| Avoid breathing dust/fume/gas/mist/vapors/spray |
| Wash thoroughly after handling. |
| Do not eat, drink or smoke when using this product. |
| Use only outdoors or in a well-ventilated area. |
| Contaminated work clothing must not be allowed out of the workplace. |
| Wear protective gloves/protective clothing/eye protection/face protection. |
| [In case of inadequate ventilation] wear respiratory protection. |
| If swallowed: Call a poison center/doctor if you feel unwell. |
| If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. |
| IF INHALED: Remove person to fresh air and keep comfortable for breathing. |
| If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. |
| Continue rinsing. |
| Immediately call a poison center/doctor. |
| IF exposed or concerned: Get medical advice/attention. |
| Specific treatment (see on this label). |
| Rinse mouth. |
| Take off contaminated clothing and wash it before reuse. |
| If skin irritation or rash occurs: Get medical advice/attention. |
| If experiencing respiratory symptoms: Call a poison center/doctor. |
| Wash contaminated clothing before reuse. |
| In case of fire: Use CO2, powder or water spray to extinguish. |
| Store in a well-ventilated place. Keep cool. |
| Store locked up. |
| Dispose of contents/container in accordance with local/regional/national/international regulations. |
| · Chemical safety assessment: A Chemical Safety Assessment has not been carried out. |
